Solo -God created us in His own image

Hymn. 482

God created us in His own image,
All the universe is His creation too;
He created us as His reflection,
Filling us with wisdom, bold and true.

Life is made for living to the fullest,
Spirit made us knowing who we truly are,
Knowing how to see reality,
Pure and innocent and free,
Made in the likeness of our God.

REFRAIN
This clear view of man is perfect,
Seen in all the radiance of light;
Here we find our nature revealed,
Spiritual and whole in God’s sight.

Everything our Master Jesus taught us
Showed the way to love each other dearly,
When he healed the sick and freed the sinner,
Seeing them in God’s own light so clearly.

As we gain the perfect understanding
That eternal Mind is the All-in-all,
We shall come to see reality,
Pure and innocent and free,
Made in the likeness of our God.
